

Dialora

Great CX platforms. Zero **call coverage.**

Sierra and Decagon both stop at chat and inbox.

dialora.ai

Dialora

**After hours,
your phone hits
voicemail.**

On both platforms.

dialora.ai

Dialora

Two platforms. Different bets.

Sierra AI

Enterprise voice, months to deploy

Decagon

Developer-led, weeks to deploy

Best fit

Enterprise vs growth-stage teams

dialora.ai

Dialora

Four calls voicemail answers.

- 01 After-hours inbound
- 02 Outbound follow-up
- 03 Live lead qualification
- 04 Appointment booking

Every time the CX team isn't staffed.

dialora.ai

Dialora

Dialora runs **all four**.

Autonomously:

- **Answers 24/7 inbound**
- **Runs outbound sequences**
- **Qualifies leads live**
- **Books appointments on calls**

dialora.ai

Dialora

Deployment. Days, not months.

Sierra AI

Enterprise contract, months

Decagon

Contract, not public, weeks

Dialora

Usage-based, published, days

dialora.ai

Dialora

24⁷

autonomous call coverage.

\$80B in projected labor savings (Gartner).

The question isn't *which platform*. It's *who answers after hours*.
