

Dialora

Five9 works. Your bill is the problem.

Enterprise CCaaS rates for calls AI could run.

dialora.ai

Dialora

**Every Five9
alternative
still needs agent seats.**

That's the CCaaS model.

dialora.ai

Why teams leave Five9.

- 01 Total cost of ownership
- 02 AI bolted on, not built in
- 03 Months to deploy

Usually after the second contract renewal.

Dialora

The usual alternatives.

Genesys Cloud

Enterprise omnichannel, months

Talkdesk

CCaaS + AI coaching, weeks

CloudTalk

\$25-50/user/month, days

dialora.ai

Dialora

Every one still routes to **humans.**

No CCaaS platform runs:

- 24/7 inbound without agents
- Outbound at scale, no headcount
- Autonomous lead qualification

dialora.ai

Dialora

Dialora covers **the volume.**

- 01** 24/7 autonomous inbound
- 02** Outbound campaigns at scale
- 03** Live-call lead qualification
- 04** Appointment booking, CRM synced

dialora.ai

Dialora

0

agent seats needed for autonomous call
volume.

Usage-based pricing, published at dialora.ai.

Deployment in *days*, not *months*.
