

Dialora

**Your best lead is
sitting
at the bottom of the
queue.**

Zoho ranks by date, not by fit.

dialora.ai

Dialora

**6:55 PM Thursday.
Called Monday
morning.**

That lead answered a competitor Thursday night.

dialora.ai

Manual qualification breaks 3 ways.

- Reps default to most recent, not best fit
- Qualification is inconsistent across reps
- No one calls after hours

Dialora

Automated qualification runs in 3 steps.

- 01** Scoring rules rank by fit
- 02** Assignment rules route by score
- 03** Workflows trigger the follow-up

No manager. No manual triage.

dialora.ai

Build the scoring model in order.

- Fit criteria first
- Negative scoring second
- Behavioral signals third

Dialora

11 days

average age of her top 60 leads.

5 had already closed with a competitor.

She'd never pulled that report before.

dialora.ai

Dialora

Scoring handles the queue. Phone leads need more.

Dialora qualifies inbound calls before they hit the module.

dialora.ai

Dialora

Still triaging leads by hand?

Let scoring rank them.
Let Dialora call them back.
