

Dialora

Sierra vs Decagon. Neither **answers** the phone.

Two strong CX platforms. One shared blind spot.

dialora.ai

Dialora

After-hours calls go to **voicemail**.

On both platforms. Every time.

dialora.ai

Dialora

Sierra AI: built for enterprise.

What it's optimized for:

- LLM-native voice and chat
- Large enterprise CX operations
- Enterprise contract pricing
- Months to deploy

dialora.ai

Dialora

Decagon: built for speed.

What it's optimized for:

- Developer-led, fast deployment
- High-growth fintech and EdTech teams
- Chat-first, voice secondary
- Weeks to deploy

dialora.ai

Dialora

What both leave open.

- 01 After-hours inbound calls
- 02 Outbound follow-up campaigns
- 03 Live call lead qualification
- 04 Appointment booking on calls

Every time the human team isn't staffed.

dialora.ai

Dialora

Dialora covers the **call layer**.

- 24/7 autonomous inbound
- Outbound campaigns, no agents
- Live lead qualification
- Appointment scheduling on calls
