

Dialora

**Your MQLs went up
40%.
Your SQLs didn't
move.**

The scoring model was measuring the wrong thing.

dialora.ai

Dialora

Guide downloaders scored higher than demo requesters.

The SDR called the wrong one first.

dialora.ai

HubSpot Score needs **two** ingredients.

- Fit criteria, not just engagement
- Behavioral signals on top
- Negative scoring for disqualifiers

Dialora

Three ways to score in HubSpot.

- 01 Manual, all paid plans
- 02 Predictive, 100+ closed deals
- 03 Combined, fit + AI history

Free tier gets none of it.

dialora.ai

Dialora

**One afternoon.
31% better
conversion.**

She added:

- 8 fit-based criteria
- 6 negative disqualifiers
- Zero new tools

dialora.ai

Dialora

31%

SQL conversion lift in 60 days.

14 criteria were purely behavioral before the audit.

Fit signals were the missing half.

dialora.ai

Dialora

Scoring ranks the contact. **Dialora** qualifies the call.

Structured call data lands before the SDR opens the record.

dialora.ai

Dialora

Still scoring on clicks alone?

Add fit criteria.

Add phone-verified data.
